To: John Karousos, Chief
Allocations Branch

RECEIVED

FEB 27 2004

PETITION FOR RULE MAKING

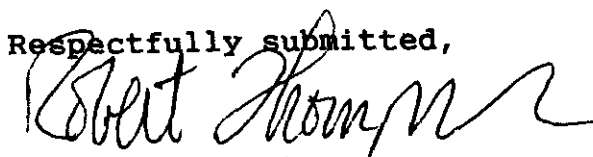

Federal Communications Commission
Office of the Secretary

Long Valley Broadcasting Company respectfully submits this
Petition for Rule Making to allocate a new FM station on Channel
275C3 at Mc Call, ID.

Attached is an engineering report, which confirms that the
proposed changes to the FM Table of Allotments could be made
consistent with FCC rules.

Moreover, should the allocation be made, Petitioner will
file an application for the new facility and, should a CP be
granted to it, will promptly construct the new station.

Respectfully submitted,

Robert Lewis Thompson

ENGINEERING STATEMENT

**PETITION FOR RULEMAKING TO
AMEND SECTION 73.202 OF THE RULES
AND REGULATIONS FOR THE FEDERAL
COMMUNICATIONS COMMISSION
TO ASSIGN FM CHANNEL 275C3
FOR USE AT McCALL, IDAHO**

LONG VALLEY BROADCASTING COMPANY

FEB 2004

ENGINEERING STATEMENT

This Engineering Statement has been prepared on behalf of Long Valley Broadcasting Company, in support of a Petition for Rulemaking to amend §73.202 of the Commission's Rules to assign Channel 275C3 for use at McCall, Idaho. As outlined in the attached channel study, Channel 275C3 can be assigned for use at McCall in compliance with the Commission's applicable Rules and Regulations regarding the separation among FM allotments. For this study the reference coordinates for McCall (NL 44° 54' 40" x WL 116° 05' 52") have been used. The nominal distance to the 70 dBu F(50,50) contour for a Class C3 station is 23.2 kilometers, therefore, this site will provide greater than 70 dBu coverage for all of McCall.

This Engineering Statement has been prepared under my direct supervision. I am an experienced radio engineer whose qualifications are a matter of record with the Federal Communications Commission. I am a partner in the firm of Hatfield & Dawson Consulting Engineers and am Registered as a Professional Engineer in the States of Washington and Alaska.
